Custom Forgework: Interior, Sculptural & Architectural.

"I consider myself a blacksmith first and artist second. It is the actual forging process that gives my work its distinctive style.

Steel is a highly malleable medium when hot. I aim to achieve the greatest possible fluidity in my designs, making use of the traditional techniques and skills of my craft to give the projects on which I work a unique style and form." -- Jake James

Museums & Heritage Sites

Fraser River Discovery Centre

788 Quayside Drive
(next to the public market) New Westminster BC
604.521.8401
